INDUSTRY INSIGHT

THE CUTTING EDGE

SURFACING SCIENCE

TECHFOCUS

INGREDIENTS, RAW MATERIALS, SERVICES, EQUIPMENT

Organised by:

OCCA
The Oil & Colour Chemists' Association

 **in** #surfex

4-5 June

Coventry
Building
Society
Arena

2024

Step
Exhibitions

Polish up your knowledge

Industry Insight

Sessions from top experts on a broad range of topics. Organisations involved in this theatre include the BCF, BASA and the CBA. The important things you need to know, delivered by those who know it best.

Sessions Include:

Latest Developments and Outlook for UK REACH

Understanding EPR Packaging

The Future of UK Chemical Regulation

The Challenges, the Time and the Real Cost of Getting Biocidal Product Authorisation: An SME Perspective

The Road to Net Zero for the Coatings Industry

Political and Policy Outlook for the Coatings Sector

Paint and Coatings Sales Trends

Determining Peroxide in Inks: Concentration and Kinetics of Formation

Preparing for the Future – A One Hour Set of Presentations and Panel Discussions by the Chemical Business Association

Reducing Environmental Impact When Painting

The Importance of Biocides for Coatings

CLP Labelling Challenges from EU Divergence

Surfacing Science

Presentations by leading scientific societies and associations such as OCCA, BCF and RSC SCIG.

Sessions Include:

Meeting Net Zero: Challenges for Industry and Society

Flammable Liquids and the Fundamentals of Static-Electricity

The Cutting Edge

The very latest in academic advances suitable for industrial application.

Sessions Include:

Sol-Gel Coatings for Coil-Coated Steels

Radiative Cooling Coatings and Coatings That Can Produce Electricity From Sunlight

TechFocus

Showcases the latest products, advancements in technology, and cutting-edge techniques from a range of leading national and international suppliers and manufacturers. Companies showcasing their latest innovations include:

Workshops

Sessions Include:

Exploring Diverging Regulation Between GB, NI and the EU in the Chemical Sector Affecting Adhesives and Sealants

2022 Seminar Attendees:

“Really well organised, very good atmosphere and enthusiasm from everyone involved.”

“Highly informative”

“Made complicated subject matter simple”

“Passionate, engaging and very confident speakers”

“The exhibition had a very positive vibe and was great to see so many visitors returning and enjoying both business and social interactions.”

Informative, Inspiring and Influential

As the ONLY event in the UK dedicated to surface, paint and coatings technology, Surfex is the place to be informed about current trends, and to hear from and interact with those influencing future thinking. The programme features content from:

OCCA
The Oil & Colour Chemists' Association

The UK Regulatory Landscape: Where Are We Now and Where Are We Going?

Chemical Business Association

Trade Control Compliance – The Chemical Business Association's Code of Conduct in Practice

A Circular Solution to Mixed Waste Paint Recycling: TiO2 Recovery and Reuse

Exploring Diverging Regulation Between GB, NI and the EU in the Chemical Sector Affecting Adhesives and Sealants

The Graphene Council

How Does Graphene Create Superior Coatings?

Alternative Fuel – Sustainability and Spill Response

BCF

The Do's and Don't of Green Claims for Decorative Paints

Graphene in Coatings

Swansea University
Prifysgol Abertawe

The Development of Sustainable Paint for Coil Coated Steel

bsi.

Navigating the World of Standards: A BSI Handbook

Manchester Metropolitan University

Antibacterial and Antifungal Action of Surfaces and Coatings are Dependent on the Surrounding Environmental Conditions and Deposition Mechanics

Superhydrophobic Coatings and Coatings that Harvest Energy

Chemical Analysis of Surfaces and Coatings by X-ray Photoelectron Spectroscopy

Laser Processing for Surface Preparation and Texturing

Constructive Conversations Compelling Connections

Surfex is the established home of face-to-face networking for the surface, paint and coatings industry. Connect with technical experts from around the world to discover and discuss novel solutions, new techniques and the latest advances.
